Subject: RE: Cabling Work Complete, Invoice

Good Morning Randy,

As always you guys came through; Larry is very professional and knows his stuff. He works under the radar meaning he is not interfering with our work flow while doing his job. We will always continue to utilize your company because of the great customer service but most of all great results.

I will forward the invoice to our billing department for payment. Thanks again Randy and thanks Larry again for a great job.

V/R
